

Share your ideas or concerns about bicycle and pedestrian facilities in the Janesville area.

HELP JANESVILLE PLAN BIKE AND PED FACILITIES

Here is an email from Alexander Brown, MPO Coordinator

Due to the nature of the pandemic, in-person meetings and public workshops are inappropriate and potentially dangerous. In lieu of these circumstances, I have created **a virtual platform for this committee and the public to weigh in on their thoughts and suggestion on biking and walking in the Janesville Area.** There are four activities as listed below:

- 1) an interactive map with existing and proposed on-street and off-street bicycle facilities (i.e., bike lanes and trails), where users may comment
- 2) an interactive budgeting exercise
- 3) An exercise to rank future trails by importance
- 4) An opportunity to provide any other comments

The site is below:
